experience

Learning Tree International 02/2015 - Present
Front End Developer/Designer
- Responsible for developing functional and appealing web applications for our US, Canadian, UK, French, and Swedish Operating Units
- Provide website maintenance and enhancements when applicable in an agile environment
- Use HTML5 CSS, SASS, JavaScript, SQL, and ASP.net to develop interactive, data driven web pages
- Creates quality mock-ups and prototypes on tight timelines
- Assist back-end developers with coding and troubleshooting
- Create cascading style sheets (CSS) that are consistent with the corporate brand, across all browsers and platforms
- Maintains graphic standards and branding protocols throughout the product's interface
- Stay up-to-date on emerging technologies through our provided course materials
- Promotes usability best practices with team members
- Assists Creative Director with User Interface (UI) Design and Development for online product applications

DRT Strategies 10/2013 - 01/2015
Associate II
FDA - CFSAN (10/2014 - Present)
- Provide project management support for multiple projects related to HPC
- Update web content using WebCMS for the FDA - CFSAN intranet website
- Development and Manage files on the CFSAN SharePoint site
- Design Newsletter Announcements for CFSAN employees and contractors

USDA - IAS/OSDBU (10/2013 - 09/2014)
- Designed and Developed the User Interface (UI) of the USDA Procurement Forecast System for the OSDBU www.pforecast-usda.net
- Provided Operation and Maintenance (O&M) support for the USDA's Integrated Acquisitions System (IAS) Website
- Graphically enhanced and organized the IAS website content
- Implemented IAS website activity metrics using Google Analytics and survey results from Survey Monkey
- Successfully designed and developed the new and improved IAS website using the state of the industry web standards and methodologies
- Reorganized website files structure for ease of maintenance and deployment of new content
- Provided ongoing and targeted program level communications

Polysonics Corp. 04/2006 - 08/2012
Web/Graphics Designer & Marketing Coordinator
- Designed the new and existing company website.
- Entrusted with the in depth redesign of the corporate brand including logo refresh and all marketing collateral that represented the image of the company.
- Maintain and update content as needed on the company website. www.Polysonics.com

Highland School 02/2007 - 05/2013
Lacrosse Coach

education
- 2004 George Mason University, Fairfax, Virginia
  Bachelor of Arts: Art & Visual Technologies
- 2014 Lord Fairfax Community College, Virginia
  Web Design Specialist Certificate
- 2015 Learning Tree International, Reston, Virginia
  JavaScript for Modern Web Development

independent design
Northern Virginia Winery Community
Supplying Graphic and Web Design services for wineries such as Pearmund Cellars, Barrel Oak Winery, The Winery at La Grange, Vint Hill Craft Winery, Philip Carter Winery, Fox Meadow Winery, Gray Ghost Winery and the former Lost Creek Winery.

Piedmont Press & Graphics
Supplied design services for the Warrenton Lifestyle and Haymarket Lifestyle magazines. Helped rescue an overseas project with Azerbaijan Airlines by designing a calendar and gift bags for the airline executives. Design and developed the companies sign service website. www.SignsByPiedmont.com

Leading Edge Screen Printing
Helped the lead designer by designing shirt graphics and details illustrations when the queue at the print shop got too full for the lead designer to handle. www.aisc.ucla.edu/iloc/report/

Seneca Holdings - Government Contract
Senior Graphic Designer on the project, responsible for taking the lead on the design for a Congressional report that was to be delivered to the Department of Justice. The project included a team of designers, editors, and professional writers. Once published, the document then had to be exported to be websafe and Section 508 compliant.

Lucinda Team
Teamed with my brother, Joshua Eagle, to design the entire website using wireframes and site maps to help direct my brother to develop the site effectively. www.LucindaTeam.com

The Northstar Group
Designed all print stationery and the company website to have a consistent feel while only having the company logo to work with.
